INTRODUCTION

THE WAY OF THE NINJA IS TO BECOME THE SHADOW LEADING THE WORLD TO PEACE AND JUSTICE

The "Bloodline of the Shinobi" existed in darkness since the Sengoku Period. Tessai, who had secretly inherited this bloodline, created the ultimate martial art form "Nindo" by merging "Ninjutsu", the Art of Invisibility and "Ki", the Art of Natural Power.

One night, Tessai finds infant twins. Although he already had a daughter named Aya, he decides to raise the twins because he lacked sons who would succeed the Bloodline of the Shinobi.

He named the older brother Kazuma because he possessed a loud cry with keen senses, and the younger one Sho, because he always smiled while being carried.

15 years have passed and Kazuma and Sho have learned "TOJUTSU", the Art of Swordsmanship, "TAIJUTSU", the Art of Physical Combat and "NINJUTSU", the Art of Invisibility. Aya has learned "SHINJUTSU", the Way of Peace.

Tessai saw that Kazuma possessed a dangerous side which lay deep within him, and his fears became a reality when Kazuma sought strength, rejecting trainings of The Way of Peace.

As time passed, Sho and Aya continued their training, and slowly acquired the essence of "NINDO."

Tessai eventually passes away without naming a successor and handing down the Final Mystery.

Consumed with hatred and the desire for supreme power, Kazuma now leads "Garzo", a group of evil and darkness. Sho stands as an obstacle, however, and Kazuma has abducted their sister Aya to drain her powers and keep Sho from interfering.

Sho must now rescue his sister while crushing his brother's plans for domination in the ultimate fight for survival!!

STAGE INTRODUCTION

There are 9 various stages which require special actions. Each stage is cleared by defeating the Boss.

STAGE 1: THE CAPITAL

Advance by jumping over earthen walls and cutting through bamboo. In this stage, concentrate on mastering jumps, swinging the katana, and basic operation methods.

BOSS: HANNYA

It is said that Ukyo, the Boss of stage 2, remotely controls Hannya. He will attack you by using his horns, columns of flames, and flip attacks.

STAGE 2: MT. FUJI

In this stage, the magnificent Mt. Fuji can be seen in the background. By using various tree branches, you will need to move upward laterally. The most important moves are jumps, Hassou jumps, and hanging.

BOSS: UKYO

Kazuma's understudy. He consistently wears Hannya's mask, to hide his true identity. Using swift movements as his strongpoint, he is a troublemaker who moves and slips away quickly.

STAGE 3: BIO-LAB

A bio-research laboratory with eerie glass chambers surrounded by barbed wires. By using movements such as Hassou jumps, advance forward through violent floor tremors. The glass chambers can be destroyed with the katana, and there is a chance that it may be filled with items or monsters.

BOSS: MANU

A monster created within the bio-research laboratory of Kazuma's organization. Made from the genes of numerous animals, his body was created to repel shurikens.

STAGE 4: SAMURAI MANSION

It is set in a Japanese-style mansion, but the construction is quite complex. The enticing ceiling, the spears, the sudden attacks from sliding doors, and attacking enemies will keep you on your toes every second of this stage.

BOSS: RUSHUDO

He is one of Kazuma's subordinates, and is the sole psychic among the leaders of the organization. He spreads an aura barrier all around his body, and rejects any type of direct attack.

STAGE 5: UNDERSEA CAVE

This is a compulsory scroll screen in which you will be moving on mine cars within a cave connected to an undersea base. You will have to defeat enemies while trying not to fall from the cars. Use extreme caution while jumping from mine car to mine car.

BOSS: NINJA ARMY CORPS

They defend Kazuma's land base. Although individual attacks may be weak, the force of their band attack is overwhelming. Defeat them with patience and endurance.

STAGE 6: IVY MOUNTAIN

In this stage, you will need to advance by hanging on to ivy which dangle densely. Here, dangling is more important than jumping. Even if you miss grasping on to an ivy, you can save yourself from falling by performing a Triangular jump if you are alongside a wall.

BOSS: WON

Like Rushudo, he is one of the leaders of Kazuma's organization. He comes from a fighting family and was trained in remote mountains. In addition to mastering various martial arts, he has a free command of "Ki" (Natural Power).

STAGE 7: CHINA TOWN

The first half of the stage takes place on water, and the latter half takes place in the town. The enemy's attacks will become violent in the latter half, so the key for stage clearance will depend upon how little damage you sustain from the first.

BOSS: RED DRAGON

Within the organization, he is an especially strong master of Chinese martial arts. He attacks with free command of numchuks and fire. He can also repel shurikens, so you need to be very careful with him.

STAGE 8: ROCKY MOUNTAIN

In this stage, you will need to move through the Rocky Mountain, with its drastic ups and downs. Special jumping skills such as triangular jumps for climbing sharp cliffs, and jumping from point to point on jagged rocks are essential for this level. Beware of falling rocks!!

BOSS: KM-99

He is the secret weapon Kazuma's organization invented in order to conquer the world. In addition to having extraordinary powers, he also attacks with lasers and hammers.

STAGE 9: MISSILE TRANSPORT ROAD

Advance by dodging enormous missiles which are transported one after another by jumping inside repair ditches. Beyond this level, is Kazuma.

BOSS: KAZUMA

In addition to his obvious "Nindo" skills, he absorbs power from his opponents every time he fights. He is indeed the most powerful, using Bujutsu and other fighting skills.
